The Journal of Systems and Software

Volume 17, Number 1, January 1992

SPECIAL ISSUE ON COMPUTER ETHICS

Contents

Readers' Corner 1

Editor's Corner: Professional Computer Ethics 5
Donald Gotterbarn, Guest Editor

Professional Responsibility

Human Agency and Responsible Computing: Implications for Computer System Design 7
Batya Friedman and Peter H. Kahn, Jr.

Expert Systems in Medicine and Moral Responsibility 15
Goran Collste

How to Make Responsible Decisions

Paramedic Ethics for Computer Professionals 23
W. Robert Collins and Keith W. Miller

Broadening the Basis for Ethical Analysis 39
Michael C. McFarland, SJ

Are Computer Hacker Break-ins Ethical? 41
Eugene H. Spafford

Another View of Computer Science Ethics: Patterns of Responses Among Computer Scientists 49
Laura M. Leventhal, Keith E. Instone, and David W. Chilson

How to Introduce Ethical Concepts

Computer Professionals: Moral Autonomy and a Code of Ethics 61
Heinz C. Luegenbiehl

Developing a Code for Ethical Computer Use 69
Ernest A. Kallman

The Use and Abuse of Computer Ethics 75
Donald Gotterbarn

EDICT for Computer Ethics Education 81
Riva Wenig Bickel, Maria M. Lorrondo-Petrie, and David F. Bush

Controversy Corner: Computers, Ethics, and Collective Violence 91
Craig Summers and Eric Markusen

Biographies 105

Volume 17, Number 2, February 1992

Contents

Readers' Corner 107

Editor's Corner: The Best and Worst of Software in the 1980s 109
Robert L. Glass

An Analysis of Defect Densities Found During Software Inspections 111
John C. Kelly, Joseph S. Sherif, and Jonathan Hops

Software Complexity and Ada Rendezvous: Metrics Based on Nondeterminism 119
Srinivasarao Damerla and Sol M. Shatz

A Flexible Program Adaptation System: Case Studies in Ada 129
James M. Purtilo and Elizabeth L. White

A Model for Interconnected LANs with General Arrivals 145
William Bulgren, Victor Frost, and Chi-Shih Chang

Data Base Design for Real-Time Adaptations 155
Prabha Gopinath, Rajiv Ramnath, and Karsten Schwan

A Practical Assessment of Formal Specification Approaches for Data Abstractions 169
K. P. Ventouris and P. E. Pintelas

Toward a Taxonomy of Software Application Domains: History 189
Robert L. Glass and Iris Vessey

Biographies 201

Volume 17, Number 3, March 1992

Contents

Editor's Corner: The Importance of Software Quality in the 1990s 203
Robert L. Glass

Special Section on Achieving Software Quality

The Specification, Engineering, and Measurement of Information Systems Quality 205
G. P. A. J. Delen and D. B. B. Rijsenbrij

Designing Software for Producibility 219
David N. Card

Using Program Dependence Graphs for Information Flow Control 227
C. Samuel Hsieh, Elizabeth A. Unger, and Ramon A. Mata-Toledo

Optimum Software Release Time with a Given Cost Budget 233
Yiu-Wing Leung

Responding to Catastrophic Errors: A Design Technique for Fault-Tolerant Software 243
Frank G. F. Davis and Rex E. Gantenbein

Special Section on Software Complexity Measures

A Formal Program Complexity Model and Its Application 253
Jianhui Tian and Marvin V. Zelkowitz

A Factor Analysis of Software Complexity Measures 267
Ramon A. Mata-Toledo and David A. Gustafson

Evaluating and Extending NPath as a Software Complexity Measure 275
R. Beth McColl and James C. McKim, Jr.

Controversy Corner: Cards, Couriers, and the Race to Correctness 281
Robert N. Britcher

Biographies 285
